

Security: Theory and Practice 2026, no. 2:

Unconventional trends and solutions in the science and practice of security and crisis management
ed. Janusz Ziarko

Topics of the upcoming issue:

- developing essential individual and organizational cybersecurity skills in the face of real-world threats;
- strategies and tools for protecting oneself and one's organization against advanced cyberthreats;
- migration issues, associated threats, and ways to cope at the individual, local, national, and international levels;
- health security, environmental security, and natural hazards;
- modern military capabilities: offensive and defensive;
- individual, organizational, and environmental resilience in overcoming contemporary threats;
- energy and infrastructure security (critical infrastructure resilience);
- integrating rescue systems as criteria for assessing local resilience in crisis response (ensuring effective response to disasters).

Subject Editor:

dr hab. Janusz Ziarko, prof. UAFM, jziarko@uafm.edu.pl

Deadline for submitting articles: 15.05.2026

Articles should be sent to the following address:

Kamil Jurewicz, Managing Editor, kjurewicz@afm.edu.pl

Instruction for Authors: <https://btip.ka.edu.pl/instruction-for-authors/>

The article must be accompanied by a signed statement of the author(s) in PDF format:
